

Technoverse Hackathon 2026

Cognizant® Technoverse Hackathon 2026 is back, bigger than ever! Evolving from a regional initiative to a national-level platform, Technoverse Hackathon brings together 6th semester engineering students from across the country to collaborate, innovate, and build smart solutions powered by Generative AI and modern engineering tools and practices. This hackathon enables participants to apply their expertise in developing innovative solutions addressing real-world challenges based on the themes & technology stacks outlined by Cognizant. What's more, we believe diversity and inclusion are key to unlocking diverse perspectives, and we are proudly committed to 50% women participation in this hackathon.

Idea Submission Guidelines

The idea submission step is now open, to present your innovative ideas for evaluation. Please follow the detailed instructions below to ensure your submission meets all requirements.

- Start of Submission: The portal is currently LIVE for idea submission. Teams may begin submitting their entries.
- Format Requirement: All problem statements and corresponding solutions must be compiled and submitted using the PDF template provided by Cognizant. Adherence to this template is mandatory.
- Post-Submission Questions: After uploading the PDF, participants will be required to respond to a series of questions related to your submission. Answering bonus questions is optional and not compulsory.

- **Template Compliance:** It is essential to ensure that every parameter outlined in the template is addressed in your submission for it to be considered complete.
- **Time Limit:** The idea submission window is 90 minutes. Once the submission is made, no further edits or changes are permitted.
- **Submission Deadline:** All ideas must be submitted by 12th April, 11:59 PM IST. Late submissions will not be entertained.
- **Submission Authority:** Only the designated team captain has the authority to submit the team's ideas on behalf of the group.

🕒 Tuesday, 7 Apr, 09:15 pm to 16 Apr, 01:00 pm

Agent Builder Challenge (ABC)

APR

23

Agent Builder is a workflow design challenge in which your team will construct a logical, node-based solution to a defined problem. You will be expected to design an end-to-end workflow, define data flow, and connect nodes to model your solution architecture.

Challenge Instructions

- The total duration of the challenge is **45 minutes**.
- **6:29 PM is the final login time**- no entries will be allowed after this.

- Participants must **log in and start the assessment before 6:29 PM** to ensure full participation.
- The **45-minute timer begins immediately** once the assessment is started.

🕒 Thursday, 23 Apr, 05:00 pm to 23 Apr, 06:29 pm

Only team leader can start the challenge
